## Fire Resistant Glass Door

## Fire Resistant Glass Door

The fire resistant glass doors are approved in whole, profiled + glass, to comply with the maximum guarantees of quality.

There are different combinations of 1 or 2 leaf swing doors with side or top fixed to suit the needs of each project.

Any space can be protected with approved fire resistant glass systems, elegance and good taste are not at odds with safety.

There are several finishes for the system, starting from a base material of steel of high resistance and durability:

- RAL lacquered steel
- Stainless steel

These systems, in addition to guaranteeing the performance against fire in case of fire, provide the sensation of luminosity, transparency, amplitude and elegance of any conventional glass enclosure system.
