Los pines tienen un sistema de fijación a presión una vez introducidos en la bisagra. En caso de necesitar mayor fijación, se aconseja la colocación de un tornillo rosca chapa.

Les broches ont un système de fixation par pression une fois insérée dans la charnière. Dans si vous avez besoin de plus de fixations, il est conseillé de mettre en place une plaque filetée.

The pins have a fixing system to pressure once inserted into the hinge. If you need more fixing, it is advised placing a screw thread plate.

Hacer el agujero con la hoja abierta en la parte interior de la bisagra.

Faire le trou avec le vantail ouvert à l'intérieur de la charnière.

Make the hole with the leaf open at the side hinge inside.
